

Trend Building seeks excellence in every aspect of our construction business and is committed to minimising the environmental impacts of our business operations and maintaining the company's resilience to environmental risks and impacts.

We seek continuous improvement in performance through the application of best industry practice to meet community expectations.

Trend Building has set the following environmental objectives:

- Controlling Trend Building's environmental impacts and continuously improving our environmental performance,
- Application of the principles of sustainable development, pollution minimisation and life cycle management,
- Providing employees with training and clear accountabilities in relation to the achievement of environmental objectives and targets, and
- Compliance with all relevant environmental laws, regulations, and standards that relate to the Trend Building's operations.

This policy has been implemented and communicated throughout Trend Building and is made available to workers and other interested parties.

The relevance and appropriateness of this policy is assessed during Internal Audits.
